Thanks Dave. I just want to double check on the 30 day comment period as the ESD for Temporary Storage of Sediments in Cell #1 was originally for 14 days from Sept 1, 2009 to Sept 15, 2009. It was later extended by another 14 days. The Coalition requests a 30 day comment period on this project.

Thanks again.

Korrin - we typically have a 30 day comment period; hopefully starting within the next few weeks.

Thanks Dave. We will review and contact you with any questions.
When is your timeframe for posting the CAD cell for public comment? Is it likely that you will extend the review period from 15 days to 30?
Thanks again for pulling this information together.
